## Projects

---

- Budget Tracker - used MongoDB, HTML, Javascript and Node.js to create a full stack progressive web app for tracking personal finances. Deployed via Heroku at <https://secret-chamber-71580.herokuapp.com/>.
- Uplift - Created API routes in Javascript to randomize content from several different providers in an entertainment app. Deployed via Github at <https://swist92.github.io/project1vibe/>.
- Noats - used MySQL, Javascript, and Node.js to create personalized recipe database app. Coded Javascript to create interactive UI for SQL database. Deployed via Heroku at <https://thawing-shore-71367.herokuapp.com/>.
